

BAT Seal

PREVENTION. PROTECTION. PEACE OF MIND.

high-security seal

Extra strong, angled, container bolt seal

- 1 The unique long and angled bolt shape, made of fully hardened 9 mm thick steel gives the BAT seal an extra security feature for transport applications.
- 2 A specially designed conical shaped bolt seal head to ensure that the seal cannot be cut or removed with a normal bolt cutter.
- 3 The steel inner bolt has a double-locking chamber for enhanced tamper-resistance.
- 4 The outer casing is made of high impact non-flammable ABS material to ensure maximum strength.
- 5 Customer logo and sequential numbering are etched with permanent laser marking. Bar coding is optional. Laser marking offers the highest level of security as it cannot be removed and replaced.

High Security Container Bolt Seal

The BAT Seal is a specially designed container bolt seal made of hardened steel. The long angled shape with a thickness of 9 mm and the special bolt head design give the BAT seal extra security features for high security transport applications.

Typical applications include containers, lorries, rail wagons, and air cargo.

Be assured of better security with our innovative use of materials and industrial design.
