

MF Bar

PREVENTION. PROTECTION. PEACE OF MIND.

**Extra strong,
angled,
container seal**

- 1 The MF Bar is the bolt security seal to lock the container's central bars for any kind of containers. This is to stop tampering and to deter any illegal access into sealed containers and trucks.
- 2 Identical sequential numbers on the bar and bolt seal provide greater security as it prevent parts substitution or replacement.
- 3 Adjustable locking positions.
- 4 High Strength Steel locking bolt seal for added security.

Specifications

Product	Material	Dimensions	Bolt Diameter	Pull Strength	Marking Area	Marking Digits
MF Bar	High Strength Steel locking bolt seal	Bar (L) - 555 mm Bar (W) - 35 mm Bolt Locking (L) - 3.5 cm	Ø11.0 mm	1,200 kg	Pin: 23.5mm	Max 8
	Quantity / Carton	Dimensions mm	Weight kg/carton	Volume m ³ /carton		
	25 sets	560 x 210 x 190	16 kgs	0.02234		

Container Security Seal

The MF Bar is made of high-strength steel construction. The actual locking mechanism - is embedded in the groove in all the metal bush, making the seals stronger and more difficult to tamper.

Typical applications of the MF Bar seal include shipping and intermodal containers. The MF Bar is also widely used for ground transportation.

Be assured of better security with our innovative use of materials and industrial design.
