

# Mega Twister SP

PREVENTION. PROTECTION. PEACE OF MIND.

## security seal

### Cost-effective Easy Application Meter Seals

- 1 Mega Twister seals are etched with permanent laser marking. Laser marking offers the highest level of security as it cannot be removed and replaced.
- 2 The side flap area is etched with sequential numbers, logo or other customised marking for security and easy identification.
- 3 Colour coding is possible by combinations of clear transparent body and multi-coloured twister.
- 4 Heat staking technology is used to permanently affix the twister in the seal body. This technology will leave clear evidence of tampering if the seal is cut or forced open.

### Specifications

Product	Material	Locking Length	Wire Diameter	Pull Strength	Marking Area	Marking Digits
Mega Twister SP	Acetal color twister/	Customised	SS with Coated:	16 kg	1.0 x 2.0 cm	Max 11
Mega Twister SP_BC	ABS High Impact Cap	"	1 x 7 x 0.5 mm	16 kg	34 x 8 mm	Max 13
			Stainless Steel:			
			1 x 7 x 0.7 mm			
<b>Standard colours</b> blue, green, red, white & yellow

### Durable plastic and wire utility seal

The Mega Twister SP is a high-quality and cost-efficient sealing solution for all kinds of meters.

The Mega Twister SP body is made of Polycarbonate with an Acetal tab in a variety of colours.

The non-flammable High Impact ABS plastic provides excellent bar-coding contrast.

Typical applications for the Mega Twister SP include utility meters, scales, gasoline pumps, drums and totes.

Mega Twister SP seals are supplied in mats of five with a tear-off mechanism which make the seal easy to handle and control.

Be assured of better security with our innovative use of materials and industrial design.
