

## high-security seal

ISO/DIS17712.2 Compliant  
C-TPAT Compliant

### High security bolt seal with spinning capability & plastic cover

- 1 High-strength steel pin and solid steel barrel for added security.
- 2 Moulded with a high-impact ABS material. The special high-resilient ABS material does not break easily but will clearly show evidence of tampering.
- 3 Identical sequential numbers etched with laser technology on both barrel and bolt to prevent replacement of parts.
- 4 Standard markings include serial number, customer name/ logo. A variation of bar codes can also be marked with laser technology.
- 5 Available with a transparent plastic cover that protects the marking on the bolt. Also available with coloured cap for the bush if different colours for pin and bush are required.
- 6 The bridge keeps the body and bolt together for better storage and easy handling.

### Specifications

Product	Material	Locking Length	Bolt Diameter	Pull Strength	Marking Area	Marking Digits
iKlic	ABS with high-carbon steel pin & bush	7.0 cm	Ø 9.0 mm	1,200 kg	Pin : 7 x 16 mm Bush : 10 x 24 mm	Max 9

	250	585 x 360 x 200	16.80	0.04212	yellow, blue, white, red & green	

### Beneath the ABS Housing

The iKlic is a high quality bolt container seal. It is specifically designed to be applied on long haul containers but it is also winning a strong foothold in the ground transport industry.

The iKlic can easily be applied by hand but must be removed with a high strength bolt cutter at destination.

Typical applications of the iKlic Seal include containers in general and shipping and intermodal containers in particular. The iKlic is also widely used for ground transportation.

Be assured of better security with our innovative use of materials and industrial design.
