CABLE SEAL

1 The Maxi Cable Lock 500 consists of an aluminium body and steel wire that is pulled to tightly secure high-value assets and provide clear tell-tale signs of tampering.

2 Mega Cable Lock 500 2B features two locking bodies and extra length steel wire for additional security and locking adaptability.

3 One-way locking mechanism is embedded for fast and easy sealing.

4 The non-preformed galvanised steel wire unravels upon cutting to show clear evidence of tampering.

5 The rib exterior of the aluminium body is designed to protect the laser markings during rough handling with anodisation of solid colour for colour coding.

6 Irreversible identifiers such as name, logo, barcode, serial number and QR code are laser-marked on the aluminium body.

7 The seal is designed, tested and certified ISO 17712:2013.
