STATE OF THE ART KEY MANAGEMENT

Latest Technology

- First of its kind; key audit technology picks up the slightest modification in returned keys.
- Latest RFID technology used in KeySeals.
- Bar-coding, colour & printing option available on all KeySeal tags.
- Stand alone or networkable.
- Customised reporting, alerts & audits.
- End of day reporting; are all keys returned?
- Connect to 3rd party applications like payroll & rosters adding a further layer of protection.
- Return KeySeals to any slot.
- Pick to light coloured LED for fast, easy key selection.

Smarter, Easier, More Secure

- Easy to read Exception Reports
- Time restrictions on when keys can be accessed.
- Key audit trail; who, when & how to replace.
- Easy control of picking runs save you time when issuing keys.
- Full key details including picture & manufacturer is displayed for all keys; even if a key is lost.

Complete Control over Capacity

- Customisable unique rack design to grow with your business.
- Custom build cabinets or supply your own. Have complete control over size.
- Start small and expand from simple readers through to secure cabinets & fully integrated key audit solutions.

Ideal for

- Cash In Transit
- Casino & Gaming Industry
- Correctional Facilities
- Government Agencies
- Stadiums
- Airports
- Schools
- Military / Defence
- Fleet Hire
- Pharmaceutical
- Transport
- Conference Centres
- Shopping Centres
- Real Estates
- Hospitals
- Control Rooms
